

SPUR™ Mini

Squad Packable Utility Robot

SPUR Mini is QinetiQ Inc.'s smallest and lightest unmanned ground robot weighing less than five pounds. Like our other family of unmanned systems, the SPUR Mini is used for reconnaissance and security operations to assist military, first responders and law enforcement personnel with security and emergency operations.

Optimized Performance for Dismounted Operations

Being compact and lightweight, the SPUR Mini's size and weight make it suitable for situations that require rapid deployment.

The SPUR Mini is easy to use and even throw-able. The SPUR Mini is able to navigate through tall grass, sand and gravel and capable of climbing over 4 in/35.5cm curbs.

Key Features and Benefits

Compact, lightweight and extremely portable

Intuitive operation

Easy to throw

Excellent mobility

Quickly deployed and fast boot up

Two-way communications

High definition video
